The activities will be outcome driven, i.e. the expected outcome must be quantified in terms of expected placement/integration numbers and hard to fill vacancies involved. The overall objective is to ensure around 2500 placements over the duration of the action in economic sectors with hard to fill vacancies.

The action being strongly result-oriented, it may contribute to: a) enhance the service catalogue of the EURES organisations; b) foster public-private partnerships and, c) address labour market needs in line with the bottom lines of the EURES reform.

Description of the activities to be funded

This activity shall support the implementation of the targeted mobility scheme "Your first EURES job" in the Member States and the EaSI-EURES participating countries. The action aims to help young people aged 18-35 to find a job, traineeship or apprenticeship in another EU/EEA country. The action targets the filling of hard to fill vacancies as identified in national/EU labour market studies or data sources.

The activities will cover the provision of direct services to young jobseekers or job changers and employers notably:
